# IMPLANT-RELATED BONE GRAFTING COURSE

*Learn and Practice Bone Grafting Techniques!*

**HANDS-ON!**

**APRIL 17, 2021 | SUITE GENIUS - MOUNT PLEASANT**

**Dr. Frederick Li,  
DMD, FICOI**

Dr Fred Li is a fellow of the International Congress of Oral Implantologists as well as an associate fellow of the American Academy of Implant Dentistry. He limits his practice to implant surgery and prosthetics in Vancouver and mentors a large study club on surgical implant dentistry and implant prosthetics.

Tooth loss, even with socket grafting, always results in some bone loss. Bone loss accelerates with time and with use of removable prosthesis. As a result of this phenomenon, bone grafting and dental implants go hand in hand. The practice of implant dentistry must be paired with some skill and knowledge in bone grafting.

The vast array of bone graft techniques and materials have created complexity and confusion. This course is a summary of bone grafting concepts and categorization of materials to help you navigate and evaluate bone graft materials, instrumentation and techniques.

This course is both for the dentist practicing implant prosthetics and also for the dentist practicing implant surgery. Learn basic bone grafting concepts and easy techniques that you can integrate into your practice immediately. Experience hands-on training!

## **IMPLANT-RELATED BONE GRAFTING COURSE**

**APRIL 17, 2021 - Suite Genius Mount Pleasant**  
2nd floor, 225 W 8th Ave Vancouver, BC V5Y 1N3

### **LEARN**

- How to choose a bone graft material and GBR barrier
- Anatomic considerations for flap design, soft tissue management and bone preservation
- Keys to successful socket grafting and when to do it

*Social distancing rules will be followed. In-person attendees will be spaced appropriately with one dentist per table. There will be ventilation from open windows. Food and drink served in individual portions. This is an opportunity for safe in-person events to continue our growth in implant dentistry. If only interested in participating online, it is possible to provide you with hands on material to follow along at home (no change in tuition). Program dates and logistics may change depending on changes to provincial gathering regulations.*
