

DR. FREDERICK LI

Dr. Frederick Li graduated from the University of Manitoba College of Dentistry, then completed two years of dental residency in hospital facilities associated with Cornell Medical Center and Columbia University in New York. He gained surgical implant experience from some of the top implant surgeons and prosthodontists in the Greater New York Region. Dr. Li is also a graduate of the Misch Implant Institute and a fellow of the International Congress of Oral Implantologists.

Dr. Li limits his practice to implant surgery and prosthetics in Vancouver. He also mentors multiple study clubs on surgical implant dentistry and implant prosthetics.

ORAL IMPLANTOLOGY STUDY CLUB 2017

Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement 5/1/2016 to 4/30/2018.
Provider ID# 369523

Overview

Welcome to the 11th year of the Oral Implantology Study Club. The study club is divided into 3 components: workshops, evening seminars, and surgery sessions. Surgery sessions are not available without a study club membership.

Workshops are one day sessions with lectures, demonstration surgeries and hands on sessions. They will be held on Saturdays.

Evening Seminars are lectures that are led by a variety of different guest speakers.

Surgery Sessions will continue to be on either Mondays or Saturdays. These days are opportunities for members to bring in their own patients for a variety of procedures including: simple implant placements, bone grafts, sinus lifts, sinus augmentations, and immediate load cases. Dr. Li assists all cases personally, providing a one-on-one learning experience unlike other study clubs. For members with 3 - 4 cases, a private session is also available. If booking a new technique (ie lateral grafting) for the first time, please attend the appropriate workshop first.

Workshops

Workshop I Bone Grafting

Saturday January 21, 2017 Lecture

Dr. Kevin Lung—Oral Surgeon

Learn about different bone grafting techniques and possible implant complications

Workshop II CT Grafting

Friday February 24 & Saturday Feb 25, 2017 Lecture & Hands On

Dr. Jill Bashutski—Periodontist

Lecture on CT grafting techniques with a hands on portion in the afternoon on pig mandibles. The Saturday is for supervised soft tissue grafting procedures on your own patients

Workshop III Implant Overdentures

Saturday April 1, 2017 Lecture & Hands On
